WELCOME TO MILLENNIUM

Dear Families,

Thank you for entrusting Millennium Community School with your child's education. Students will be exposed to a variety of experiences that we hope will enrich their learning throughout the school year and develop stellar students. We encourage you to contact your child's teacher with any questions.

The entire staff at Millennium is looking forward to a productive and enthusiastic relationship with you and your child. It is because of your support of our program that we are able to serve our families in the Columbus area, and we are looking forward to continuing our service into the foreseeable future.

Our facility consists of three academic communities: grades K-1, grades 2-5 and grades 4-8. Each community functions as an independent academic entity, with an administrator called an Academic Architect to guide curricular, disciplinary and overall student achievement.

Our approach has the following attributes:

- Creating cultural and enriching experiences for our students
- A data driven environment to measure and increase students' academic performance
- The celebration of every success, recognizing student and school-wide accomplishments each month
- Monitoring discipline and quickly resolving matters not conducive to the learning environment
- Building an organization with improved processes to achieve effectiveness and efficiencies throughout

"The Millennium Way" requires all of us to become better, and constantly move toward becoming the best. In order for our students to be successful, our expectations are extremely high and our results will be extraordinary.

Sincerely,

The Staff of Millennium Community School

Mission Statement

The Millennium Community School is committed to achieving excellence by promoting high standards of academic, social and emotional growth.

School Pledge

Each morning at the Millennium Community School, students start their academic day with reciting positive affirmations. Below are the recited affirmations:

Education is our number one priority.
I will be better today than yesterday.
I will think. I will listen. I will learn.
I will do all I can to be the genius I am.
I was born with everything I need to be the smartest in the world.
Everyday my actions and work will prove it!
Everyday my actions and work will prove it!
Today I will try and try! I will never give up!
I will persevere to the very end.
I will be great!
I know it! I know it! Therefore, I will.
When I get to the top of the mountain, I will help someone else make the climb to be as great as I am and will be!

Excuses and Self Confidence

Excuses are tools of incompetence that build monuments of nothingness;
And, those who specialize in their use seldom accomplish anything.
I will not make excuses. I can do anything I put my mind to.
No matter what other people say I cannot do...I know I can.
I think positive and not negative.
I will never say I can't!
I can if I try!

DAILY SCHEDULE

The academic school day runs from 8:45 am to 3:25 p.m. A child is tardy after 9:05 am. Children are allowed to enter the building at 8:15 a.m. for breakfast. Students arriving before 8:15 must remain outside until 8:15 a.m. Students eat breakfast from 8:15 a.m. to 9:00 a.m. **Students arriving to school after 9:00 a.m. are not permitted to eat breakfast. This does not include students who ride a school bus that arrives after 9:00 a.m.**

- Due to Covid 19 we have adjusted our school year schedule, and have opted to use a hybrid schedule so that we can keep our families as safe as possible. Our students have been broken down into two groups that will occupy the school days on different days during the school week:
- Group A will be in the school building Monday & Tuesday and will follow the in-school schedule below. On Wednesday, Thursday & Friday they will follow our online schedule.
- Group B will be in the school building Thursday & Friday and will follow the in-school schedule. On Monday, Tuesday & Wednesday they will follow our online schedule.
- The Millennium Community School will also provide for those families that decide that their children will not attend school in person. These students will just follow the online schedule every day.
- Once it is determined by the family how a child will attend school (Hybrid, Online, or once we are allowed to open full time) the child must stick with that method for the whole quarter.

ATTENDANCE

Attendance and participation in class, whether in school or online is an integral part of academic achievement and the learning process. Regular attendance develops patterns of behavior essential to professional and personal success in life. In order to emphasize the necessity of daily school attendance the School Attendance Law was created by the Ohio Department of Education. This law requires students to attend school a total of 920 hours each year. Therefore, it is the parent's responsibility to comply with this law to ensure that all school-age children are educated. Failure to adhere to this compulsory attendance policy will result in your **child repeating a grade** and/or result in you, the parent/guardian, being reported to the appropriate court authorities and social service agencies for noncompliance.

Additionally, all community schools are mandated under HB 364 attendance guidelines established by the Ohio Department of Education to follow the same school attendance provisions codified in the ORC Chapter 3301. As a result, the Millennium Community School Board of Directors adopted the policy below that has been in effect since August 14, 2006:

1. Students report daily at 8:15 am and are dismissed at 3:30 pm, in accordance with our school calendar and schedule (exceptions are early release days). After 9:05 am students are considered tardy and need to be signed in at the office.
2. The classroom teacher must record student absences and tardiness daily.
3. The parent(s)/guardian(s) must call the main office at **614-255-5585** to notify the school if a student is absent or tardy, and must submit a written notification regarding the reason(s) for absence or tardy upon the student's return to school.
4. Students who are tardy or leave prior to dismissal time will have their times recorded and time counted against the required 920 hours of instruction
5. Students without legitimate excuses who fail to participate in 72 cumulative hours (11 days) of consecutive learning **will be WITHDRAWN DUE TO TRUANCY** in accordance to HBC 364 and will not receive a passing grade nor be promoted to the next grade level. Each day that a student is absent or tardy, the parent/guardian will be informed via telephone through our School Reach program.
6. The Dean of Students will work with parents and guardians to ensure compulsory attendance by all students, including but not limited to, home visits, intervention programs, and/or referrals to appropriate agencies or courts.
7. No make-up work will be permitted for unexcused absences.

Below is a list of absences and tardies that will be coded as an excused absence or tardy only with supporting documentation.

1. Doctor/Dental Appointment. A written statement from the office must be submitted.
2. Religious Holidays
3. Personal illness of the student. A written statement from the parent can be submitted. After 3 consecutive days, a doctor's note must be submitted.
4. Illness in the family necessitating the presence of the child/quarantine of the home. A written statement from a doctor must be submitted.
5. Court-related matters. Court documentation must be submitted.
6. Death in the family.

Below are the steps that will be followed for students who are considered truant or chronically tardy.

1. After **3** days of unexcused absences or tardies, the parent/guardian will be notified by mail, e-mail or phone concerning their student's attendance.
2. After **5** or more accumulative days of unexcused absences or tardies, the parent/guardian will be asked to meet with the Dean of Students and Superintendent to discuss their student's attendance.
 - a. If the Parent/Guardian fails to attend the meeting arranged by the Dean of Students, a visit will be made to the home concerning the student's attendance.
3. After **12** days of unexcused absences, the student will be removed from our roster, and disenrolled.

Please understand that your student's education is our number one priority and the above stated attendance policy will be strictly followed. Thank you for familiarizing yourself with our attendance policy and adhering to it each day in order to ensure the continual educational success of your child.

CURRICULUM

Millennium Community School recognizes and adheres to the Common Core State Standards that were adopted by the Ohio Department of Education as well as 44 other states. Educational Standards help teachers ensure their students have the skills and knowledge they need to be successful by providing clear goals for student learning.

“The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help create a successful student. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.” (Common Core Mission Statement: www.corestandard.org)

The MCS teaching staff uses various professional development resources to implement effective instructional practices inside the classroom. Students are given short bi-weekly assessments to ensure they have mastered the information taught in class. Additionally, students are given larger quarterly assessments to collect data on academic progress and measure growth.

To ensure our students are prepared for state-mandated assessments, all teachers use state standards and benchmarks to guide instruction. During class, students are exposed to the vocabulary and/or mechanics that will appear on state assessments

Teachers submit weekly reports of completed lessons, and the explicit assumption is that all children have mastered all material in each and every completed lesson. The curriculum provides a clear standard against each teacher's measured performance. Should the performance fall below expectations, adjustments are made in teaching technique(s). The school employs a Director of Teaching and Learning, Academic Architects, Instructional Coaches and mentor teachers to assess, collect and analyze student data. The team also works to supervise teachers, provide evaluations and feedback, and report to the school's administration on student progress.

Behavioral Expectations

School had to develop SW- behavior expectations. In fact the 3rd meeting was about trimming down the M-7 so that we could meet the standards required in PBIS, but rather than tampering with the system that was in existence, we decided to use the M-7 as the character building portion of the school curriculum. We decided to also create expectations that could meet the guidelines as well as fit into the structure we had been working on for 9 years. Ms. P found a model and adopted it for the school and created the matrix. We shared it with teachers to get their thoughts as well as any feedback. After discussing it with the Teachers we added the Expectations to our Rocket Roll Call (monthly school celebrations), and put them up in the common areas as well as distributed it to all the teachers.

Teaching Expectation

At the Millennium Community School we have created a class that deals specifically with teaching the School Wide principles & expectations. Each class room has the M-7 class once a week. We call it the M-7 class and we reinforce this with our monthly Rocket Roll Call (The first friday of the month) where we review the principle of the month and the expectations. Each teacher fills out a rubric that helps the school identify the behaviors that best represent the principle of the month. We are working toward getting the teachers to use this day to go over the M-7 and work with the expectations that they need to reflect upon in their classroom. Within the beginning of the next school year we will require that teachers set within their schedule a time to over, model and discuss the expectations (3B's) and the M-7. Each classroom has a Expectation Matrix in the classroom on display.

SCHOOL CULTURE AND CODE OF CONDUCT

The Millennium Community School has developed a culture based on the “Millennium Seven” (M-7):

Unity - to strive for and maintain unity and peace in the Millennium community for the success of all that dwells within its walls

Self Determination - We of the Millennium community choose to define ourselves and refuse to give that power to others, We name, claim and prove that we are Great at all we think, say and do.

Respect - I will practice my listening skills and learn to pay attention and honor the feelings, wishes, rights, and traditions of others. I will strive to treat others as I want to be treated, and see the Humanity that unites us all.

Gratitude - I will practice being thankful for what I have, and I will display appreciation for and return kindness to all.

Purpose - To make our collective calling to get the maximum benefit from the educational opportunities provided in my school community, to make myself a greater person, and raise myself to the highest academic standards possible.

Creativity - To always do as much as we can, in the way we can, in order to leave our school community more beautiful and beneficial than we inherited it. To use my imagination and original ideas to make my school, and eventually the world a better place.

Trust - To believe with all our heart in our school, our parents, our teachers, and our abilities to achieve all the goals that we set for our lives.

These principles are the cornerstone of our character building program. By having our staff & students focus on them in our curriculum, and in action we are able to foster a place that is conducive to the learning process. In addition we have school wide expectations that help instruct all members of our community on how to act in every area of our school. In each classroom and in all areas we have our school wide expectations visible. We call the expectation the 3b's and strive to make sure that not only do our staff and students know them but put them in practice

*Be Respectful

*Be Responsible

*Be Safe

The success of the Millennium Community School depends on the support of everyone involved in shaping our student's lives. By working together we can promote academic achievement, good

character, and most importantly build great people who will be able to contribute to a better world.

SCHOOL CODE OF CONDUCT

Parent-Student-Teacher Agreement

The success of the Millennium Community School depends on the support of everyone involved in shaping our students' lives. By working together we (MCS administration staff, parents, and students) can promote academic achievement and good character and most importantly build great people who will be able to contribute to a better school culture and ultimately help build a better world.

Each student and his/her parent or guardian is asked to commit to working together as a team by demonstrating & teaching the 3Bs & the M-7. To help enforce this we have developed a Parent-Student-Teacher agreement, which is on the last page of this handbook. The agreement is also available in the school office, on our site, and will be distributed the first day of school.

At Millennium Community School, students will be encouraged to make appropriate choices regarding their personal behavior and conduct. Administration and staff will ensure order and support the development of good character and positive self-esteem at the school in the following ways below.

We Will Acknowledging Appropriate Conduct

Positive Interactions and Positive Feedback (using a PBIS model)

➤ **Special Attention:**

In cases where a student exhibits chronic misbehavior, it is the responsibility of the teacher to first reteach the behavior, and then if the behavior continues then discuss the issue with the Academic Architect and/or Dean of Students. The Academic Architects, Dean of Students and teacher will ask other staff members to take time to greet and chat with the student; increasing the number of positive interactions will dramatically. This strategy may reduce the student's need to seek attention and recognition through misbehavior.

- Each classroom at The Millennium Community School is encouraged to develop academic and behavior goals and use the school wide incentive program (Decision Dollars) to motivate the students toward those goals. Once class goals have been selected, teachers will help students understand how their objectives relate to the school wide goals. With teachers as leaders, students will decide how to achieve goals & earn school wide incentives, and classroom incentives when goals are reached.

➤ Correcting Inappropriate Conduct:

Discipline will be developed in a positive manner and without the use of physical force, ridicule or sarcasm. One of the goals of the school is to foster and sustain strong habits and self-discipline. The way we will develop this is by teaching the behaviors that we want to see, and then set clear expectations for our young people. In disciplining, teachers, faculty, and parents/guardians should always endeavor to be firm, just, consistent and impartial yet display compassion for the child.

At Millennium discipline issues are viewed as opportunities to re-teach behaviors that are based on the M-7 & guided by the 3-Bs. We believe that young people want to fulfil expectations, but may lack the skills, knowledge, and practice to put them in action. At experience. Children want to follow rules if adults clearly define the rules, keep the rules consistent, and then invite the children to assume responsibility for their personal behavior. Assuming responsibility for personal behavior includes understanding and accepting the responsibility and consequences for violating rules.

Consequences for Minor Misbehavior:

An example of actions that may be taken by teachers in response to minor misbehavior includes the following:

- Reminding student of expected behavior
- Reteaching the student the expected behavior
- If behavior continues imposing an in-class time-out (no more than 15 minutes)
- Imposing an out-of-class time-out (no more than 15 minutes)
- Contacting the students' parent or guardian
- Assigning the student a lunch detention

Helping Students with Chronic Misbehavior:

It is expected that all students at Millennium Community School practice what we call "The 3 B's" which are "Be Safe, Be responsible and Be Respectful", our teachers will teach our students how to meet these expectations. It is also understood, however, that a single set of procedures will not be effective in helping every student develop the skills and attitudes necessary for success. In such cases, teachers and faculty may adopt disciplinary procedures to meet individual situations while still adhering to the need to maintain a positive focus and emphasize calm and consistent consequences.

Definitions of Severe Misbehavior:

Most misbehavior will be handled with a discussion, reteaching of the appropriate behavior or the use of mild consequences. However, serious misbehavior will hold equally serious consequences that

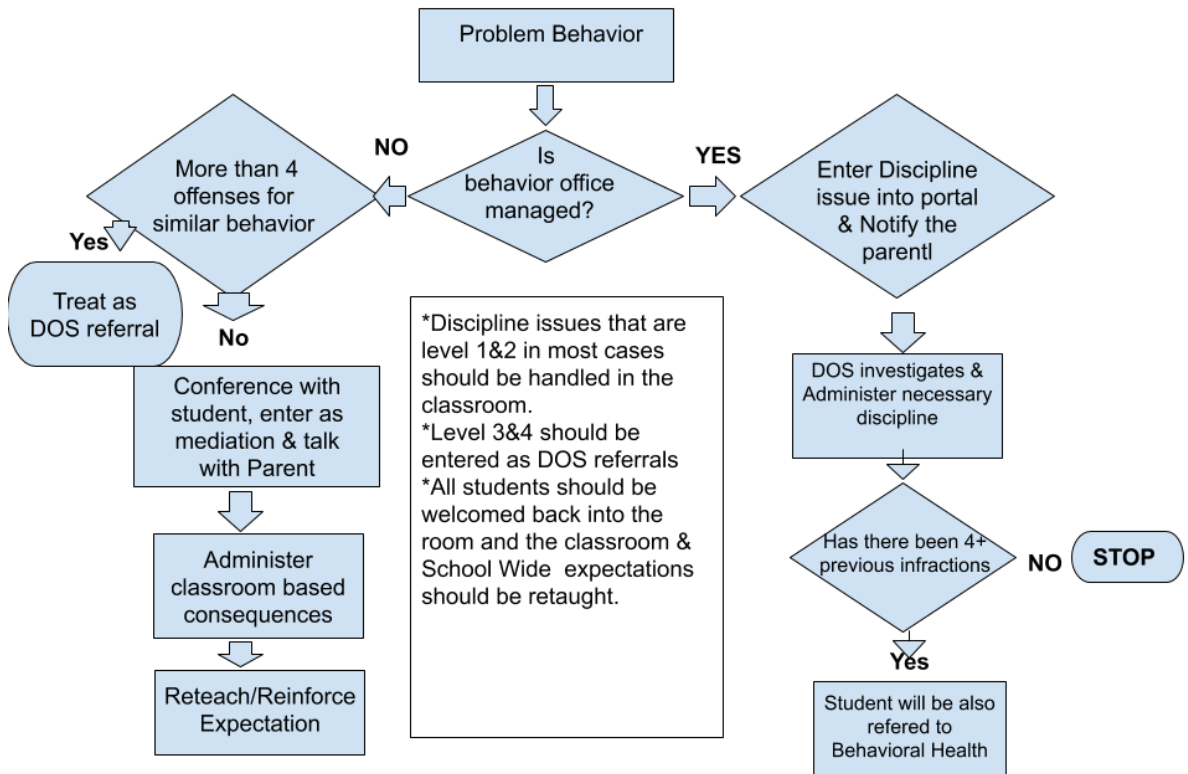

may include suspension or expulsion, depending on the seriousness of the infraction and the student's history. Such behavior is defined as belonging to at least one of the following categories:

- **Insubordinate Behavior:** The direct refusal to comply with a reasonable staff directive within a specified period of time.
- **Inappropriate Touching:** Uninvited contact such as touching, hugging, patting, pinching or fighting. Any unwelcome sexual physical conduct and offensive touching
- **Physically Dangerous Behavior:** Fighting, assault, spitting and/or physical intimidation
- **Profanity/Verbal Abuse:** Profanity or obscene language in either written or oral format and/or the use of obscene gestures or signs directed toward staff, students or visitors
- **Coercion:** Forcing another student to do something by force or intimidation.
- **Threats:** Actions or statements that are perceived as intimidating to staff, students or visitors.
- **Repeated offenses:** Student misbehavior that repeatedly takes place after previous disciplinary actions have been attempted.
- **Vandalism:** Defacing or destructing school property or the personal property of staff members and/or other students.
- **Illegal behavior:** If a staff member is aware that a student has been or is engaged in illegal activity, the staff member will refer the case to the Academic Architect's office. Out of school Suspension Homework Procedures

The following procedure for homework is to be followed for students that have been suspended or expelled from The Millennium Community School.

1. When a student is sent to the Dean of Students for discipline that results in suspension, the Dean will communicate this fact to the appropriate Architect so that the student

can receive school assignments for the time that he/she will be out of the building. When a student is given an out of school suspension, the student should be provided with a chromebook for the period of the suspension. This is done to ensure that our students do not fall behind in their course work as well as keeping with the school's mission i.e. "To foster life-long learning through academic excellence..." We also believe that it is the school's duty to provide class work when a child has been suspended from our building. It is the responsibility of the parent or guardian to obtain the student's assignments, or to make sure that student is completing assignments in the online learning program.

- a. If the suspension is for less than five days in duration, the student and his parent/guardian shall make arrangements to obtain assignments, or if they have wifi obtain a chromebook. The teacher must inform the architect or the designated building administrator in writing that the work has or has not been completed.
 - b. If suspension is for more than five days in duration, the student and his/her parent/guardian shall be provided a copy of the Out-of- School Suspension Assignment Form to assist them in tracking their assignments if they do not have an internet connection, if internet connection is available student can keep up through the online classroom. Educators will indicate whether the assignment is "Complete," "Partially Complete," or "Incomplete" and initial their determination.
2. All assignments are to be submitted to the appropriate teacher for their review within a reasonable period of time. Teachers have discretion as to how long to accept an assignment from a student.
 3. Once the assignment has been completed, the teacher will inform the Architect or designated building administrator via email or submit the completed Out-of School Suspension Assignment Form, whichever is applicable, for determination as to whether the absence may be modified to "Out of School Suspension with Homework."

HOMWORK PHILOSOPHY AND GUIDELINES

Philosophy

Millennium Community School advocates, encourages, and promotes the philosophy of homework as a vital component of educational development. It is expected that the following goals will be met through consistent and well-designed homework:

- Students will develop a greater sense of responsibility and self-direction.
- Students will acquire organizational skills.
- Students will improve independent study skills.
- Students will cultivate time management skills.
- Students will develop skill-building, discipline and self-learning techniques.
- Students will obtain critical and divergent thinking skills that will evolve throughout a lifetime of learning.

Guidelines

- Each teacher will effectively communicate his/her homework policy to students and parents. Parents and students should anticipate homework each weekday evening to reinforce those skills learned in the classroom, to compensate for skill deficiencies, or to further challenge accelerated students. Students in third through fifth grade may have homework to complete during the weekend.
- Homework will be planned and assigned for instructional purposes related to classroom and benchmark objectives. Clear instructions will be provided. Projects will have an established timeline for progression and completion. Throughout the school year, the quantity of homework may vary depending on the maturity and ability of students as well as the school calendar. Research indicates that in grades Kindergarten through 6 grades, twenty minutes of reading, at minimum, is appropriate and effective for student learning.

Take a few minutes to make your child a better student for a lifetime!!

Why Can't I Skip My Twenty Minutes of Reading Tonight?

Let's figure it out mathematically!

Student A reads 20 minutes, five evenings every week.

Student B reads only 4 minutes a night...**or not at all!**

Step 1: Multiply minutes a night x5 each week.

Student A reads 20 minutes x 5 times a week =100 minutes a week

Student B reads 4 minutes x5 times a week = 20 minutes a week

Step 2: Multiply minutes a week x 4 each month
Student A reads 400 minutes a month
Student B reads 80 minutes a month

Step 3: Multiply minutes a week x9 each month
Student A reads 3600 minutes a month
Student B reads 720 minutes a month

Student A practices reading the equivalent of ten whole school days a year. Student B gets the equivalent of only two school days of reading practice.

SPECIAL EDUCATION GUIDELINES/PROCEDURES

Compliance with Federal and State Special Education and Disability Laws

The Millennium Community School District and Sponsor acknowledge and understand that it is subject to all federal and state laws prohibiting discrimination on the basis of disability, including the Individuals with Disabilities Education Act of 1997 (IDEA); 2004 Reauthorization of IDEA (IDEIA); No Child Left Behind (NCLB); (Title I), Section 504 Rehabilitation Act of 1973 (Section 504); and, the Americans with Disabilities Act of 1990 (ADA). Millennium Community School (MCS) will be accountable to the Board of Directors for purposes of assuring compliance with federal and state special education and disability laws.

Responsibility for Special Education Services

The District acknowledges and understands that the Superintendent and Director of Special Education or designee is responsible for assuring that all special education students attending the Millennium Community School receive a free appropriate public education (FAPE) under the IDEA and No Child Left Behind (NCLB).

Service Delivery

The District will use the combination model (a combination of the [insurance and contract] models) for special education service delivery. Specifically, the District will be responsible for providing special education instructions according to the individualized education programs (IEP's) for each student with a disability enrolled at MCS. The District will deliver special education instructions, primarily within the regular classroom, and will provide resource room "pull-out" services as required by student IEP's. Within this framework, the District will provide teacher training on the school's curriculum and implementation of the curriculum that includes instructional strategies that meet the needs of all students (IEP, 504, etc.).

Related Services

The District will provide all related services required by the IEP's, including initial and re-evaluations, occupational therapy, physical therapy, speech therapy, paraprofessional services, school psychology services and school nurse as required by student IEP's. The District will be responsible for selecting related services providers who will be assigned to MCS.

Special Education Teacher Qualifications

The District acknowledges and understands that it is not exempt from special education credentialing requirements under the IDEA and NCLB. MCSD will hire individuals that apply through the Superintendent, Director of Special Education, and/or the Human Resource Department who meet the federal definition of highly qualified. (See Highly Qualified Teacher Tool Kit ODE document.)

Special Education Records Requests

When a student on an IEP, developed by a school district or public agency, enrolls at MCS, the school will immediately notify the Director of Special Education. The Director of Special Education will request MCS to obtain the IEP and other relevant records from the student's previous school or agency. In accordance with IDEA, and the school district guidelines, after a child has enrolled in MCS and was receiving special education services elsewhere, and the child's IEP is unavailable, interim services will be provided for the child. Such interim services will continue to be provided until the child's records are received from the sending school district or public agency.

If the child's records from the sending school district or public agency have not been received within thirty (30) days from the date of enrollment, the child will be placed in School-Wide Academic Progress Monitoring for the purpose of determining academic needs. This will be done with the full involvement of the child's parent or caregiver.

Pre-referral Intervention

The District acknowledges and understands that pre-referral interventions are based on general education and is the responsibility of regular educators. Data will be gathered through the Response to Intervention process to be used when students are referred for a suspected disability. Based on a review of the data collected, a determination will be made concerning implementing the referral process.

Response to Intervention (School-wide)

The school will initiate a **Three-Tiered Response to Intervention (RtI)** model as its school-wide intervention process. Curriculum-based assessments will be conducted and documented consistently on an on-going schedule for all students. The school will develop procedures and initiate training on RtI for all teachers.

Student Support Team (SST)

The integrated Student Support Team ensures the implementation of RTI. Members include the child's parent/caregiver, Principal, the Director of Special Education, regular education teachers, special education teachers, and other educational specialists as necessary.

Assessment and Re-Evaluation Procedures

The District will be responsible for carrying out all initial and re-evaluations in accordance with Rule 3301-51-06. A qualified team, including, but not limited to, the parent, regular education teacher, special education teacher, psychologist, Director of Special Education and other educational personnel as needed, will conduct initial evaluations for students suspected of a disability in accordance with Rule 3301-51-06(B) and re-evaluations to determine continued eligibility in accordance with Rule 3301-51-06(G).

Culturally Responsive Practices

The District will identify and use culturally responsive assessments and provide culturally responsive training for its staff. This will ensure that students are not misidentified or over identified in special education categories. The school will develop internal tools to use in conjunction with the guidance document developed by the Ohio Department of Education, to monitor disproportionate representation in special education, as required by federal law. (Section 618 (d) of 20 U. S. G. 1400 – the Individuals with Disabilities Education Improvement Act of 2004) § 618 (d) Disproportionally.

Procedural Safeguards

The Director of Special Education or designee will follow all required timelines and documentation for obtaining written parental consent [Rule 3301-51-05(E)(1)/Form PR-05]; and, be responsible for sending out prior written notice to parents [Rule 3301-51-05(C)(I)/Form PR-01]. Included with the prior written notice and consent for evaluation forms, will be a copy of the procedural safeguards notice [Rule 3301-51-05(D)(1)(a)].

Additional forms to be sent, should include a parent invitation to all required meetings [Rule 3301-51-05(B)/Form PR-02] and referral for evaluation form to gather date and history of child in accordance with Rule 3301-51-06(A)(1)/Form PR-04. The Special Education Director or designee will be responsible for scheduling and facilitating eligibility determination (Evaluation Team Report) meetings in accordance with Rule 3301-51-06(E)(F).

Multi-factored Evaluation

If the parent requests a multi-factored evaluation, the process will be implemented and completed within 60 days from the date of consent. The referral and assessment process will be initiated, so as to allow the completion of the IEP within 30 school days of the determination that the child needs special education and/or related services in accordance with Rule 3301-51-07(D)(2)(a).

If the student's information is received from the sending school prior to initiating an evaluation, a meeting will be held to review the services specified on the existing IEP. After a review of the

information by the IEP team, a determination will be made concerning the implementation of the existing IEP, or whether changes should be made based on new information provided in the IEP meeting.

IEP Development and Review Meetings

DISCIPLINE PROCEDURES FOR SPECIAL EDUCATION STUDENTS

A Change of Placement

The District will implement discipline procedures in accordance with Rule 3301-51-05 (K) (1) (a) (i) (ii) and IDEA-Reauthorized Statute (July 1, 2005), 615 (k) (1)(A). School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change of placement for a child with a disability who violates a **Code of Student Conduct**.

Manifestation Determination

Within ten (10) school days of any decision to change the placement of a child with a disability, because of a violation of a code of student conduct, a manifestation determination review (meeting) shall be conducted. MCS, the parent/caregiver and relevant members (as determined by the parent and MCS), shall review all relevant information in the student's file (including the IEP, any teachers observation and any relevant information provided by the parent), to determine if the conduct was caused by or had a direct and substantial relationship to the child's disability or the direct result of MCS's failure to implement the IEP. [Rule 3301-51-05(K)(7) and IDEA- Reauthorized Statute on Discipline]. If the school, the parent/caregiver, and relevant members of the IEP team make the determination that the conduct was a manifestation and is related to the child's disability, the IEP team shall conduct a functional behavior assessment and implement a behavioral intervention plan for such child, provided that the school has not conducted such an assessment prior to such an determination before the behavior that resulted in a change in placement described in IDEA Reauthorized Statute, Section 616 (k)(l)(C) or (G).

Resolving Disputes Regarding Identification, Evaluation, or Placement of Child with a Disability or the Provisions of FAPE

Millennium Community School shall provide parents an opportunity to have an impartial due process hearing. An impartial due process hearing may be requested at any time the MCS proposes to initiate or change the identification, evaluation, or educational placement of the child with a disability or the provisions of FAPE to the child [Rule 3301-51-08(B)(l)(a)]; or refuses to initiate or change the identification, evaluation, or educational placement of the child with a disability or the provision of FAPE to the child [Rule 3301-51-08(B)(l)(b)]. TRANSPORTATION

Student Transportation & Pick-Up Authorization Form

Before any individual can pick up a student, the school requires that the parent or guardian authorizing this action sign a form. This activity is to ensure the safety and protection of your child. This form is at the end of this book and is also available in the School Office.

After School Student Transportation or Walker Pick-Up

Millennium Community School students who ride a school bus, are picked-up, attend latchkey or walk home are assigned to certain locations in the building. Each classroom will have a roster of their students noting if they are walkers, pick-up, latchkey, or bus riders. The following are guidelines for each dismissal situation.

1. **WALKERS** - Students who walk home will be escorted to the designated exit doors upon dismissal notice. At no time should a student walk to the exit doors unescorted. Students are to exit through the designated doors and leave the school premises immediately. Students are not permitted to loiter in the school or on school premises. Students will be directed off the school premises by school security personnel.
2. **STUDENTS WHO ARE PICKED UP** - Assigned school personnel will escort students who are picked up to their designated area. When the designated person arrives on the school premises, they will be directed by the school personnel to the pick-up area. The person picking up the student(s) will give the student's name, and the assigned school personnel will retrieve the student from the pick-up area and escort them safely to the appropriate vehicle. **The pick-up person will need to show a valid I.D. to match the name listed on the authorized pick-up form.** The school security will then direct the person to the area to exit the school premises.

NOTE: FOR SAFETY REASONS, WE ARE REQUESTING THAT PERSONS ENTERING THE PARKING LOT AREA DRIVE IN A SAFE AND COURTEOUS MANNER, AND OBEY THE DIRECTIONS OF THE SECURITY STAFF. ALL PARKING ON SCHOOL PREMISES WILL BE DIRECTED BY SCHOOL PERSONNEL TO ENSURE THAT ALL OF OUR STUDENTS ARE SAFE AND PROTECTED. ENTRANCE DOORS ARE LOCKED FROM 3:15 PM TO 4:00 PM. ENTRY INTO THE SCHOOL BUILDING IS PROHIBITED AT THIS TIME.

3. **BUS TRANSPORTATION** - Students who ride a school bus must have their transportation request approved and assigned by their district of residence. The district of residence will provide Millennium Community School with a list of students they transport, noting their route numbers, pick-up times, and location of pick-up and drop-off. Upon dismissal, bus riders will be escorted to their assigned bus pick-up area. When the bus route number is announced, designated school employees will escort students to their appropriate bus. The

designated employees will remain stationed at the bus until all students board the appropriate bus, and are sitting in their assigned bus departure seats.

If a student changes residence, a transportation change of address form must be submitted, and contact to the district of residence should be made as soon as possible. The district of residence will then notify Millennium Community School of the new routing information. Please note that students will not be permitted to ride any bus other than their assigned bus. Additionally, parents/guardians will not be permitted to take their child from the bus line. Staff will direct parent(s)/guardian(s) to the office and the office staff will have the parent/guardian sign the student out. The office will contact the bus security personnel and have the student escorted to the office to meet their parent/guardian.

4. **LATCHKEY** - Students who attend latchkey will be called for dismissal and will be escorted by assigned school personnel to the latchkey area. Students will then be under the care and direction of the latchkey staff. Students should not leave the latchkey area unless escorted and/or directed by the latchkey staff.

Emergency Changes in Transportation

If your child must change their regular mode of transportation you are required to send a written notice to your child's teacher. We are no longer able to take alternative transportation requests over the phone. If a written request is not submitted, the student will be placed on their assigned bus. **There will be no exceptions to this policy!** Should there be an emergency that affects the regularly scheduled means of transportation, Millennium Community School will accommodate requests on a case-by-case basis.

STATE GUIDELINES FOR PROVIDING BUS TRANSPORTATION FOR STUDENTS

Section 3327.01 of the Ohio Revised Code (ORC) requires the student's district of residence to provide school bus transportation – to and from school – to which they are assigned. However, should the transportation of such students require more than thirty minutes of travel time, the district of residence is not required to provide transportation. Section 3327.02 outlines the review, appeals process and informs parents/guardians of their right to request and receive payment in lieu of transportation.

PARENT TEACHER ASSOCIATION

The Parent Teacher Association (PTA) is a school organization, comprised of parents, teachers, administrators and volunteers. The PTA objective is to provide support to the scholastic and extracurricular programs for our school, through fundraising and volunteer assistance. The PTA is a major mechanism, by which parents can become involved and contribute to the continuing excellence of the school, as well as voice their suggestions and concerns.

What are the goals and objectives of the Parent Teacher Association?

Providing a better education for our children requires a close working relationship among parents, administrators, teachers, students, and the community. Our goals and objectives include, but are not limited to:

- Expand parental and teacher involvement
- Build greater parental trust and support for school personnel
- Communicate effectively with parents, administrators, teachers, students, and community members
- Ensure high academic standards amongst the students
- Raise money for school improvements, special purchase items, classroom supplies, and student events

Who can join the Parent Teacher Association?

Millennium Community School's Parent Teacher Association is open to parents/guardians, school staff and any individual(s) who wishes to join. We invite all parents to become involved with their child's classroom, and school activities that are offered at MCS. Administrators, teachers and community members are also encouraged to join. A membership fee is required to join the PTA.

When are the Parent Teacher Association meetings held?

PTA meetings are held on the 1st Tuesday of each month at 6:00 pm.

PTA programs and functions are discussed and planned, during the first half-hour of each meeting. PROMOTION AND RETENTION

Promotion

Student promotion to the next grade level is determined on an individual student basis. Students are promoted when they have achieved the skills and knowledge necessary to be successful with the content in the next higher grade level. Promotion for a student is based upon the following criteria.

1. A student receiving passing grades (“D” or above) in the core courses of math, science, language arts, and social studies will be promoted to the next grade level.
2. No student should be retained more than twice during their time spent in grades kindergarten through eighth grade.
3. A student with failing grades in the core courses at the end of the school year may be assigned to the next higher grade after an evaluation by the teacher and with the discretion and approval of the principal.

Third Grade Reading Guarantee Promotion Policy

2015-16 School Year

Students who have been retained in the third grade as a result of The Third Grade Reading Guarantee will immediately be promoted to the fourth grade upon meeting the following requirement:

1. Demonstrating reading competency on an alternative reading assessment approved by ODE. Alternative ODE reading assessments will be administered during the summer and throughout the school year.

Students who have been retained in the third grade once by The Third Grade Reading Guarantee will be promoted to the fourth grade even if they have not shown reading competency by the end of the school year.

1. Students promoted to the fourth grade in this way will receive “intensive remediation services” in reading.

Retention

Student retention is determined on an individual student basis. Students are retained when they have not mastered the skills and knowledge necessary to be successful with the content in the next higher grade level. Retention for a student is based upon the following criteria.

1. A student who receives failing, incomplete, or less than satisfactory marks in two or more of the core subjects will be retained in their current grade level for the subsequent school year.

2. A student who is truant for more than 10% of the required attendance days of the current school year and has failed two or more of the required curriculum subject areas in the current grade is retained unless the students' principal and teachers of the failed subject areas agree that the student is academically prepared to be promoted to the next grade level.

When grade level retention is considered the following procedural guidelines will need to be met.

1. The teacher will confer with the parent by the end of the second quarter about the reasons the grade retention is being considered. At this time a specific academic intervention plan will be developed and implemented to address the student's individual needs. This conference must have documented notes.
2. The parents, teacher, principal, and other appropriate staff will confer about the student's educational needs by the end of the third quarter. At this time the intervention plan created the prior month will be discussed as well as other relevant information. This second conference must have documented notes.
3. The parents, teacher, principal and other appropriate staff will confer prior to the school year ending about the student's progress. At this final meeting the parent will be presented with a retention form. The parent will then have to complete the retention form and return it to Millennium Community School. In the instance of retention, an academic plan will be prepared that includes the following:
 - a. A summary of the school's interventions during the current year done to meet the student's academic needs.
 - b. The interventions to be implemented during the next school year to meet the student's academic needs.

If a principal approves the grade level retention of a student and the parents do not concur, a letter stating the principal's recommendation and rationale will be placed in the student's permanent file and the student will not be retained.

Third Grade Reading Guarantee Retention Policy

Students who do not reach the designated OAA cut score for Reading (392) **will be retained** in third grade reading **except** for the following students:

- **Limited English proficient students** who have been enrolled in U.S. schools for less than two full school years, and have had less than two years of instruction in an English as a Second Language program.
- **Special education students** whose IEPs specifically exempt them from retention under the Third Grade Guarantee.

- **Students who demonstrate reading competency** on an alternative reading assessment approved by ODE.
- **Any student who has received “intensive remediation services”** for two years and was previously retained in kindergarten through Grade 3. A student that advances because of this exception must continue to receive “intensive remediation services” in the fourth grade, or whatever reading interventions are required by the student’s IEP or 504 plan.

Students who have been retained in the third grade as a result of the Third Grade Reading Guarantee will:

- a. Receive instruction on a 4th grade level in any subject in which they show competency.
- b. Receive “intensive remediation services” in reading.
- c. Will be placed with a teacher that meets the necessary instructional qualifications laid out by ODE.

Re-enrollment:

If re-enrollment forms for the next school year are not received from a parent/guardian by a designated date, it will be assumed that the child will not return and the available space will be filled by another student.

NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS

All information collected will be held in strict confidence and released to others only with parent permission or as allowed by law. For example, the school district will send records by request to another school district, or other educational agency, in which a student intends to enroll.

The parents may have a copy of those records upon request.

The school will keep a record of all persons who review confidential records. The school will also maintain a list of those employees who may have access to records. The school district or other educational agency will inform parents when personally identifiable information collected, maintained, or used is no longer needed to provide educational services to the child. All personally identifiable data will be kept for at least five years or longer if required for audit purposes, or otherwise required by law.

What are your rights as a parent?

Parents and students have rights in this process. Parents have the right to:

- Review their child's records

- Refuse permission to release information (except as required by law, or permitted by law to be releases), and
- Request that information they believe to be inaccurate, misleading, or in violation of their child's privacy or other rights be changed. The district has a process to resolve disagreements about information collected.

The school district has appointed one person to make sure that information about students is kept confidential. Contact your school district board of education office for this person's name. The school district's policies and procedures for special education are available. Contact the school district's superintendent.

Admissions

It is our policy to accept students in grades K-8. These students can be residents from anywhere in Ohio. Parents are required to fill out the necessary forms and provide important documentation pertaining to students' and parents' identity in order to be accepted to the school. These documents must be provided in a timely manner.

The enrollment period for the upcoming school year begins in January of the current school year. There is a limited number of spaces available for each grade. A lottery or random process will be used if the number of pre-enrolling students is greater than the seats available to attend. Students who are not immediately placed at Millennium through the lottery process may be placed on a waiting list.

Whitehall	614-417-5140
Reynoldsburg	614-501-1041

2. Gather the following documents*

1. Your child's original birth certificate (photocopies are not accepted)
 2. Your child's immunization records
 3. If applicable, your custody papers.
 4. Proof of residency (lease, title, or affidavit of residency; phone bills and utility bills are not accepted.)
3. Register on site at the school, 10:00 a.m. to 2:00 p.m., Monday through Friday (school offices are closed during the month of July).

*These documents MUST be received within 14 days of enrollment.

4. Each new student that enters Millennium Community School above kindergarten will take a placement test. The student's performance on the test will be used to appropriately place the student in the proper grade (not necessarily the grade the student records may state). New students' grade placement is based on the results of a standardized reading assessment. If a student is reading below grade level, then the student will be placed in the previous grade. This is done to give the student time to improve their reading skills, and to prevent them from falling further behind. In the case of a student with an IEP, the student in question will be placed in the next grade level only if he/she has been retained twice before in their academic career.

For directions or to make an appointment, please [contact the school office](#) for more information.

Re-enrollment

During the enrollment period, parents of attending students will be asked to provide notice of intent of whether or not their student will continue to attend Millennium Community School for the upcoming school year. If no notice is received from the parent by June 30 of the current school year, it will be assumed that the child will not return and that position may be filled by another student.
